AS 260

Intraoral Scanner

SCAN ME

Scanning Elevated

Introducing the AS 260, the latest milestone in intraoral scanning.

Its advanced features elevate performance without compromising on the desirable qualities that you have come to expect.

Accuracy from New Heights

AS 260 incorporates numerous technical advancements, including an innovative optical structure that enhances depth of field, an upgraded hardware platform to handle increased data input, and an exclusive algorithm that effectively leverages extensive information.

Consequently, dentists can expect enhanced clinical clarity, improved scanning experiences, and improved data integrity.

20µm Accuracy

Full arch scanning

18mm Depth of Field

Improved Data Integrity

Brand New Design

The AS 260's sleek and modern design, coupled with its lightweight construction, makes it a delight to use and behold.

The AS 260's **detachable cable** feature significantly simplifies the process of replacing a damaged cable, eliminating the need for complex disassembly and reducing downtime. With this cost-effective feature, dentists save valuable time and minimize disruptions to workflow.

Exclusive Architecture

AS 260 presents a future-proof framework that unlocks new capabilities for years to come. Consequently, dental professionals can anticipate remarkable enhancements in soft tissue removal and models imbued with sharper details, courtesy of the state-of-the-art Front-end Image Processing Algorithms.

Improved AI Assisted Soft-tissue Removal

Improved Model with Sharper Details

The Alliedstar Experience

Signature design elements that focus on ease of use, user comfort and efficiency, only from Alliedstar.

Calibration Free

Powered by Single USB Cable

No Pre-Heating or Powder Required

Remote Control

Duo Scan Buttons

Two Sizes of Autoclavable Tips

175g Light Weight

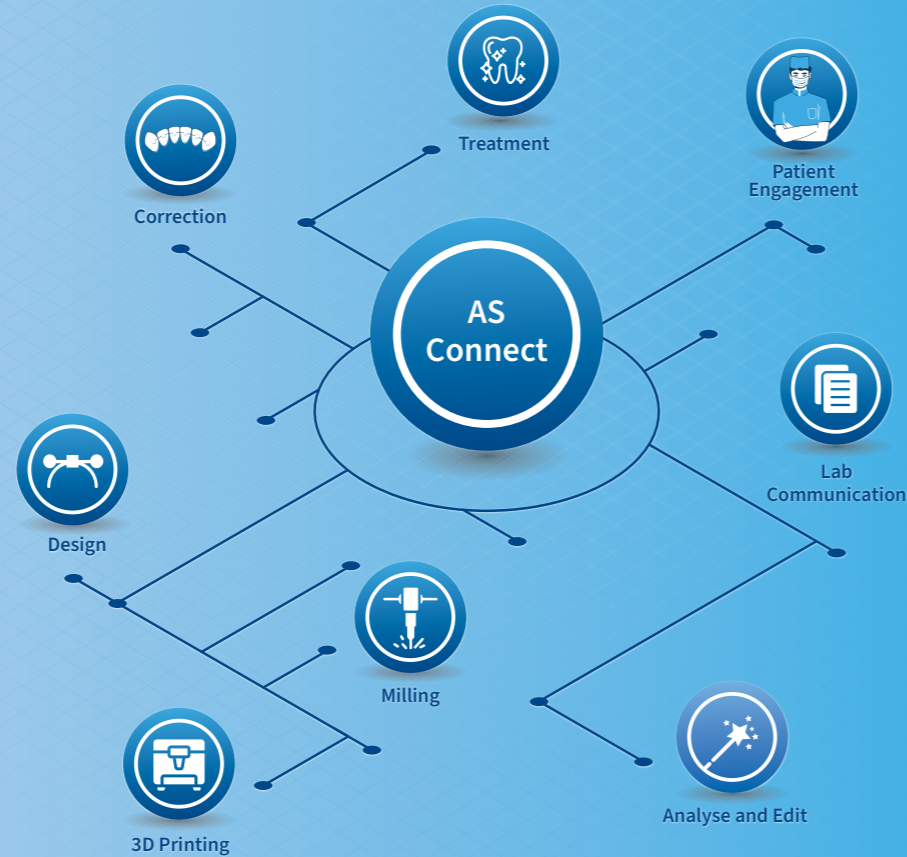

Shock Resistance

AS Connect

AS Connect is the perfect software suit companion for AS 260, a comprehensive solution helps you take full advantage of the digital workflow.

Blooming Eco-system

Applications from Alliedstar and third-party integrations offer endless possibilities for extending capabilities and engaging patients.

Data Safety

At Alliedstar, your data safety is our top priority. That's why we have dedicated servers on every continent to provide exclusive storage silos, ensuring the utmost protection for your data.

Available in the AS Connect Store

Integrated Workflow

AS Connect's integrated workflow allows you to easily manage and track orders for patient and case management, with a dashboard and analytics for added convenience.

We understand the importance of seamless integration between software platforms for your clients' success. That's why we are collaborating with leading industry partners such as **exocad**, **easyRX**, **OnyxCeph** and many more to provide a smooth user experience through tight software platform integration.

Third-party Integrations

Patient and Case Management
